

# INSTRUCTIONS

## HOW DOES THE MAP WORK?

This Premium Black **Scratch Off World Map** is covered with a scratchable gold foil ink.

The idea is to scratch off all the countries you have visited so far, and the new ones after that, in order to bring to light the beautiful warm colors underneath.

We've used a High Quality Matte laminated paper for a nice scratching sensation and a beautiful finish.

**We recommend the use of our scratching tools provided in the accessories pouch** to prevent leaving possible traces on the paper.

Please avoid using coins, sharp objects or other tools to scratch off the gold foil, as we cannot guarantee if and how it could damage the paper.

**Check our detailed instructions on how to best use the tools on the back.**

# HOW TO USE THE TOOLS ?

1. We recommend using the **Scratching Pen Tool** to scratch the gold foil around borders for a more precise effect, while trying to avoid sea areas.

2. You then have the option to use the **Black Pick** provided to scratch off larger areas.

3. Lastly, use the **Cleaning Brush** to clean off smudges.

Once you've scratched all the places you visited so far, pin your Map directly to your wall or place it in a 24x36 inch\* frame for maximum enjoyment. (\*61x91 cm)

HAVE FUN TRAVELING  
& ENJOY THE SCRATCHING !
